

Roots to Wings

Sustaining the Food Centre that supports our community

Greener Village
Community Food Centre

Est. Cost: \$30,000

Irrigation System

Installation of an irrigation system would significantly increase our crops and minimize losses due to scorching, dryness, and underfeeding. In addition, the irrigation plans include our community gardens which will make watering community garden plots much easier for those who garden with us.

Statistics

Service Area:

50km radius of city limits

Emergency hampers per month:

1,300

Percentage of children:

39%

Individuals per month:

3,300

Total Visits in 2016:

13,818

What is Roots to Wings?

Roots to Wings is the capital campaign of Greener Village Community Food Centre. The campaign aims to bring corporate partners together to sustain major projects within the charity that cannot be completed under its operating budget.

Partnering with Greener Village through the Roots to Wings campaign allows corporate and community groups to help the food centre achieve goals in target areas while maintaining its food budget.

Est. Cost: \$5,000

Educational Signage

Education is a large part of our mandate at Greener Village. There is so much to see and there are so many opportunities to learn, and we'd like to share our knowledge with all of our visitors!

Est. Cost: \$10,000

Solar Heating Project

We are fortunate to have an east-facing wall that receives a substantial amount of sunlight. It is our goal to harness this latent energy and use it to lower our utility costs. The project will also heat a small greenhouse.

Partnership Levels

Est. Cost: \$15,000

Warehouse Plumbing

Our warehouse currently does not have its own plumbing, making food processing and volunteer access to handwashing and water difficult, especially when our kitchen is booked.
