

# Greener Village Community Food Centre

## Sponsor a Row Initiative

### Project Description

Greener Village Community Food Centre has been providing emergency food and clothing to low income families in Fredericton for more than 30 years. Our centre serves as a gathering place to nurture health and wellness. Each month we help over 3,300 people, 39% of which are children.

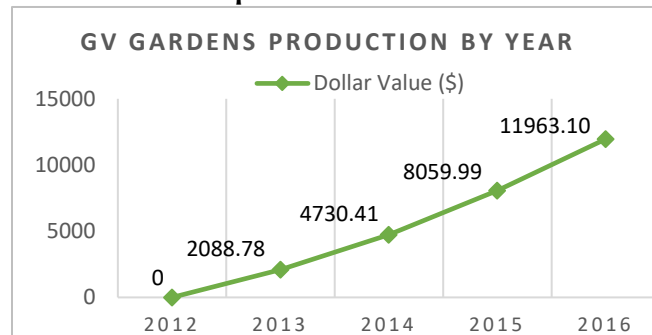

### Request

Are you interested in partnering with our garden program? We have an exciting campaign that just launched! Partner and volunteer with us and watch your donation grow, literally! Choose to sponsor a row, 4 rows, or a full greenhouse (8 rows). Costs cover seeds, soil amendments, balancing, and a small portion is retained for maintenance.

#### Packages:

Row	\$250
4 Rows	\$1,000
Greenhouse	\$2,000

### Garden Snapshot

Our gardens have grown significantly since their first year of operation and have provided us with a wealth of educational and community building avenues. Our goal this year is to provide \$15,000 of fresh produce over the 2017 growing season.

### Benefit to Project Partner

To showcase your sponsorship signage will be placed in the greenhouse on a prominent wall. Your representation is important to us and we can discuss signage, location, and duration of your promotion with us. Greener Village hosts many groups that tour and visit the center, along with hundreds of volunteers who will be working in this newly developed space. We are eager to continue our garden and your partnership would help us move forward to "grow our community" together 🌱
